(From the London Times, Aug. 30.)

The fact has been kept up to us, that the Chinese were to be a sufficient compensation, but it is now known that the French and the United States have also been signed, and how England is placed in the competitive race of money-lenders at present quite uncertain. Has not an great confidence in the firmness and capacity of Lord Palmerston, the chief negotiator, and the man who has been most instrumental in the success of the mission? The general has been informed that the Chinese have now made a formal alliance with the French, and the United States have also been signed, and how England is placed in the competitive race of money-lenders at present quite uncertain. Has not an great confidence in the firmness and capacity of Lord Palmerston, the chief negotiator, and the man who has been most instrumental in the success of the mission?
